### PARTS:

- [rear spoiler](#) (1)

*if broken or lost*

---

## Step 1 — rear spoiler degradation

- These two cotter pins must be removed

## Step 2

- To remove a screwdriver or other thin, stable article is helpful (in the picture: letter opener)

## Step 3

**i** TIP: If the component is often removed (eg for thorough cleaning), it is helpful to provide the split pins with some electrical tape, so tools are unnecessary

## Step 4

- After that the spoiler can be removed upwards
